

FO-225

VORT
VORTKART

30Cr-Mo
Steel

Gas Power

1.5m+

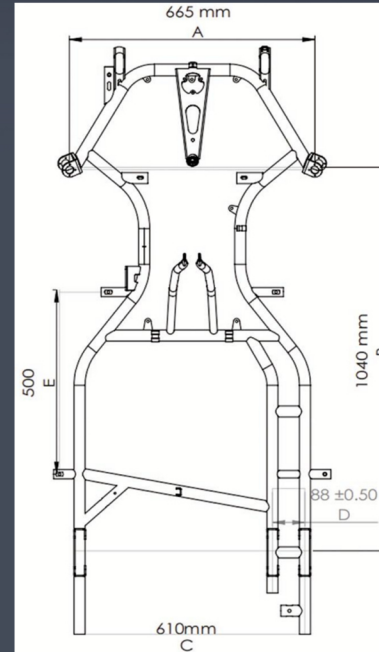

Zongshen 225cc

FEATURES

Adopting chain transmission, it has greater torque, strong power, and excellent handling. Paired with 6-inch grass tires, it is suitable for various fields,

Unrestricted by the venue, making the driving experience more exciting!

The main frame is made of high-quality medium carbon steel, with a 30mm solid rear axle. The overall strength of the vehicle is higher. In terms of safety performance, independent PE collision plates are used to avoid safety risks caused by minor collisions. The braking system uses single disc hydraulic calipers, which have higher rigidity and better stability.

TECHNICAL PARAMETER

Specifications	Parameter	Starting Method	Hand pull start
Product Model	OR1	Protective Structure	20mm safety protection bracket
Power Horsepower	8HP/5000RMP	Clutch	Dry centrifugal clutch
Engine Configuration	Chaindrive 420	Seat	Thick ened seats
Maximum Torque	11.5Nm/2500(r/min)	Throttle Brake	30solidrearaxle
Main Frame Material	Medium carbon steel	Braking Form	Singledischydrauliccalipers
Fuel Tank Capacity	6.5L	Wheel base	1000mm
Main Frame Technology	MIG+Laser welding aging heat treatment	Steering Wheel	30mm 300mm 320mm
